Red Hat Satellite, Identity Management (IdM), Linux (RHEL)

Automation & Configuration Management:
Python, Bash, Ansible

Monitoring & Performance Management:
Datadog, AWS CloudWatch, Azure Monitor, New Relic, Splunk

Development & Programming:
Python (Scripting, Automation)

EDUCATION

MIT | xPro
Diploma of Design and development of artificial intelligence products and services.
August 2023 - October 2023

ESIME - IPN
Communications and electronic engineering
2014 - 2016

LANGUAGES
English B2
Native Spanish

EXPERIENCE

IT ANALYST
TCS - TATA Consultancy Services | Jan 2022 - Present

- Configure and maintain Linux (RHEL) servers, including provisioning, security hardening, and troubleshooting.
- Manage cloud environments in AWS and Azure, handling server deployment, configuration, and monitoring.
- Automate server tasks and optimize performance using Python and Bash scripting.
- Utilize monitoring tools like Datadog, AWS CloudWatch, and Azure Monitor to ensure optimal infrastructure performance.
- Support customer applications by providing troubleshooting and ongoing system management.
- Develop and maintain documentation on server configurations and cloud platform operations.

IT SENIOR SYSTEMS ADMINISTRATOR
GFI - Grupo Financiero Inbursa | Feb 2018 - Dec 2021

- Virtualization Systems (RHEV, VMware, AWS): Skilled in deploying, provisioning, and configuring virtualization environments for production.
- Red Hat Products (RHEV, Satellite, IdM): Experienced in managing Red Hat products to support enterprise operations.
- Bash Scripting: Proficient in automating tasks and optimizing server performance with Bash scripts.
- Ansible (Playbook Development): Experienced in creating and deploying Ansible playbooks for consistent server configurations.
- Troubleshooting: Strong in resolving issues on both virtual and physical servers.
- Documentation: Effective in developing and maintaining detailed documentation for systems and processes.
- Team Collaboration: Adept at working with teams to achieve project goals and ensure system integration.
